Who is an ECBA™?

ECBA Competencies

ECBA covers the foundational knowledge on business analysis according to the BABOK® Guide and showcases that you have the core knowledge and competencies for the in-demand field of business analysis. Stand out from the crowd - highlight you have the knowledge and be certified by the leading authority in business analysis, IIBA.

Agile Analysis Certification

The new competency-based IIBA® Agile Analysis (IIBA®-AAC) Certification addresses both necessity and demand for agile and analyst communities to collaborate and transform project delivery.

IIBA®-AAC certification strengthens your skills and expertise, focusing on applying an agile perspective within a business analysis framework.

As an Agile Analyst, you will learn how agile intersects and interacts with business analysis. This certification is for:

- BA professionals who work in agile environments
- Augmenting your business analysis skill set and expertise
- Staying up-to-date on best practices and industry trends

In the digital economy, success is defined by sensing and responding rapidly to market demands.

The IIBA® Annual Business Analysis Salary Survey reports 71% of BA professionals practice agile approaches, and those certified in agile analysis earn up to 16% more.

Certification in Business Data Analytics (IIBA® - CBDA)

The new Certification in Business Data Analytics (IIBA® - CBDA) recognizes your ability to effectively execute analysis related work in support of business analytics initiatives.

What is Business Data Analytics?

Business data analytics is a discipline by which a specific set of techniques, competencies and practices are applied to perform the continuous exploration, and investigation of business data. The goal of business data analytics is to obtain insights about a business that can lead to improved evidence based decision-making.

IIBA®- CBDA Competencies

Certification in Business Data Analytics: Earning this certification informs employers of your passion for and competencies performing business analysis on analytics initiatives. The certification helps identify skilled business data analytics professionals to organizations seeking these in-demand skills.
